Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, Feb. 20.—Cold storage men are waiting for eggs to get down to 14c before putting any away this season. Fresh eggs are now 16c, and are considered weak. They are thus cheaper by 2c per dozen than they were last year when cold storage men were eager to buy for the winter demand.

One heavy speculator in eggs who lost money last season says he will not buy eggs this spring until they get down to 12c, but there are other dealers who are willing to pay 14c, and so the latter figure will probably be considered the lowest for 1906, as the cold-storage demand regulates the prices in the height of the egg-producing season, which will be reached in March or April.

"In putting eggs by for higher prices one realizes that this is a big egg-producing country," one cold storage man said today.
